1 Summary Automatic

0	8	0	7
reported incidents	other reports	map objects	sources

OSAP holds 8 items inside this area for last 24 hours, from 7 sources: 6 news reports, 2 open-data items.

Most of it is local news (6), infrastructure (2). The places named most often are Bangkok (6).

Reporting is rising: 6 items in the last 7 days against 0 the week before.

The largest groups of reports about one incident: “Thailand weather today, 13 November: heavy rain in 15 provinces”, 3 reports from 2 sources [R1][R6]. Grouping is automatic and is not a finding.

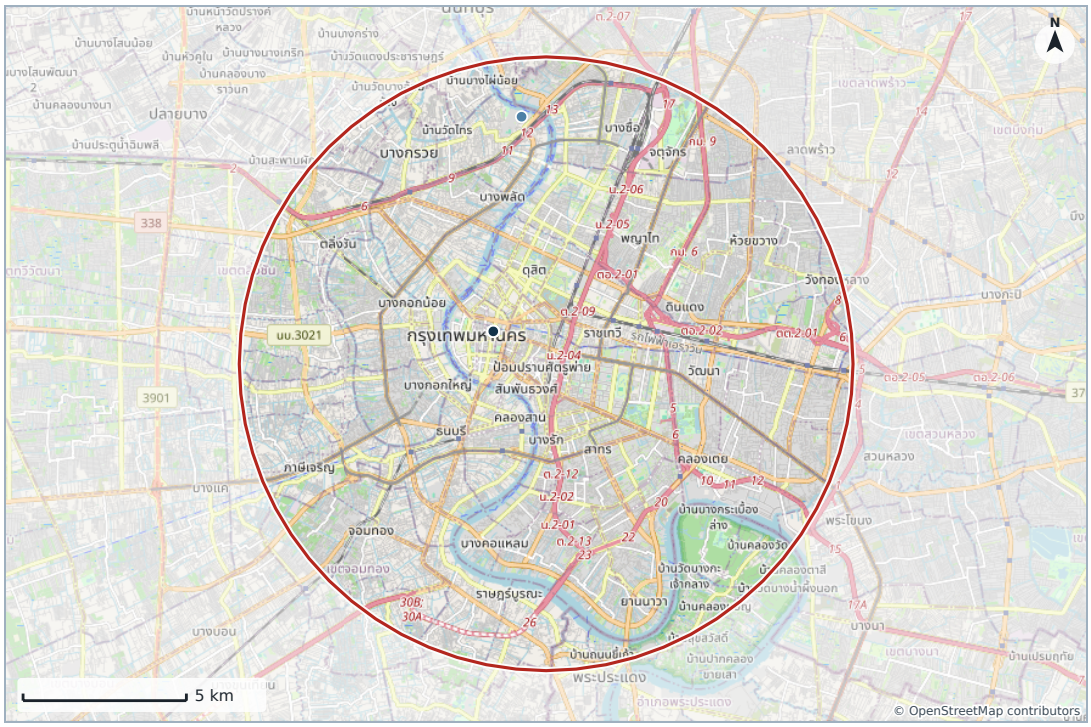

Latest reports: “Southern Thailand set for heavy rain and Bangkok for warmer conditions” (The Nation Thailand, 13 Nov 2026 1130Z / 18:30 ICT) [R1]; “Anutin welcomes Chinese Premier Li Qiang to Government House” (Khaosod English, 13 Nov 2026 1118Z / 18:18 ICT) [R2]; “Man falls to death from sixth-floor balcony after hiding from flight attendant girlfriend’s ex” (Khaosod English, 13 Nov 2026 0941Z / 16:41 ICT) [R3]; ““S.K. Bangkok Mai” found errors “P. S. Council of the City of Bangkok” interfered with use of budget in the d…” (INN News, 13 Nov 2026 0811Z / 15:11 ICT) [R4].

491 reports have no map location and names no place inside the area, so they are left out.

> **Nothing in this report is confirmed.** "Reported" means a named source said it; government figures are the government's claims, and a credible source can still be wrong. Casualty figures are never added up, because several reports may describe one incident. Every row links to its source and carries a SHA-256 fingerprint.

2 Overview map

Figure 1. The drawn area and everything located inside it: 8 marks

KEY

- Report or record (no incident words)
- Drawn area

Positions are as precise as each source allows. Grid references are MGRS.

3 Reported incidents (0)

Reports that describe shooting, explosions, mines, incidents at sea or harm to civilians, picked by fixed words (no AI), or rated high severity by OSAP's rules. Newest first.

None for last 24 hours.

4 Other reports and records (8)

Official records, news, social posts from official and news accounts, open data and neighboring countries' reports inside the area, plus unmapped reports that name a place in it. Newest first.

Figure 2. Other reports and records: 8 mapped; numbers match the table
